## UNHOLD - BIOGRAPHY

The swiss formation Unhold is active since 25 years, fusing together sluge-, postmetal und noiserock and making themselves a staple in the scene. Unhold is an experimental chunk of heaviness, always out to explore a new path.

Unhold thrives on dynamics, the alternation of emotions and the instrumental variety. 5 musicians putting a lot of thought and work into making emotionally complex creations, which can't be fully comprehended just after one run-through. Hope, conception, anger and agony generate a space and a sonic architecture which bear witness to a conscious existence and vigorous force. Unhold early on coined the term "Alpine Distortion", accounting for their provenance and their conglomerate of heavy music.

Putting down roots isn't a trait of the quintet – times are too volatile, bleak and faceless. Conditions which induce works of dense atmosphere, generating queries and assertions demanding to be expressed time and time again. Tearing their feet out of the mud yet again Unhold trudge their set out path.

After many years as a quartet since 2012 Unhold unite three rough-edged and enticing voices, guitars, keys and synth, bass and drums following their mission to merge beauty and beast into one hybrid creature - fierce, intimidating, beautiful and compelling.

Unhold are doing gigs regularly and play shows with bands like Shrinebuilder, A Storm of Light, Zeal & Ardor, Zatokrev, Minsk, Crowbar, Torche, Coalesce, The Ocean, Ølten as well as Biohazard, Strife, From Ashes Rise und Sick Of It All in the earlier days.
